## The Problem

---

As an individual seeking education benefits, I want to understand the eligibility criteria for the Edith Nourse Rogers STEM scholarship so I can apply if I'm eligible and not spend time applying if I'm ineligible.

If I'm currently ineligible, it'd be helpful to know if it's a scholarship I may be eligible for in the future.

The Education benefits routing wizard and VA Form 22-1995, which are accessible on VA.gov, are being modified to provide additional information on the purpose of and eligibility requirements for the Edith Nourse Rogers STEM Scholarship.

## Why This Testing?

We want to validate that the prototype effectively addresses the needs of students who are interested in applying for the Edith Nourse Rogers STEM Scholarship before we begin development.

## Primary Finding

Veterans can determine their eligibility and would prefer not to submit applications when they understand they are not eligible for the benefit.

***“If I'm not eligible for it,  
why am I going to put an  
application in for it?”***

-P5

## Finding 1

# Veterans can determine their eligibility before submission

### Education Routing Wizard

The screenshot shows the 'How do I apply?' step of the wizard. It asks if the user is applying for a new benefit or updating an existing one. The 'Applying for a new benefit' option is selected. Below this, there's a section about the Edith Nourse Rogers STEM Scholarship, which requires users to meet specific criteria related to STEM fields and Post-9/11 GI Bill or Fry Scholarship benefits.

The screenshot shows the 'Update your education benefits' step on the STEM page. It asks if the user is applying for the Rogers STEM Scholarship. The 'Yes' option is selected. This step also includes a section about the Edith Nourse Rogers STEM Scholarship, which requires users to meet specific criteria related to STEM fields and Post-9/11 GI Bill or Fry Scholarship benefits.

- Veterans can determine their eligibility based on the copy in the Education routing wizard.
- Veterans can determine their eligibility based on the STEM page. (Useful, as the majority of VA Form 22-1995 users bypass the wizard.)
- Adding “science, technology, engineering and math” to the 2<sup>nd</sup> question helps users answer the question accurately.

*“Those 3 criteria are pretty clearly laid out, even on the first page... It's very clear.”*

- P7

*“I have 2 years left and I'm a history major. I don't fit any of these... so I'd click ‘No’.”*

### Key findings:

- Eligibility requirements are a bit wordy.
- "I have 2 years left and I'm a history major. I don't fit any of these... so I'd click 'No'...then I'd [go to the]"Other VA education benefits' [page]..."I'd be looking for something that says, 'Additional benefits'."
- Sighed when Exit page appeared. "But If that were me, I would have already said, 'Look, I don't qualify for it.'"
- [What caught his attention on the Exit page?] "Right here [the icons] is where I looked. I saw, check, x - read that, x - read that. Then I read the heading about needing to meet all 3 criteria. That's when I said, 'Let me be obstinate and click yes.'" "The first thing that I saw were these [checkmark and x icons]. The [icons] are definitely prominent enough"
- "If it were me, I would have clicked "No" [for the "Would you like to continue applying question]
- "There's got to be something that sounds a little bit more professional than 'used up'."
- "[The 'Check your remaining benefits" link] is a big one I'd click on.
- On the wizard, as well, get rid of "Has used up" and "are" in bullets.
- Recommends hyperlinking the ENR STEM Scholarship link in on the wizard and likes that the STEM Scholarship name is linked on the STEM page.

Key findings:

- "I really do think there shouldn't be a button there saying, 'do you want to apply?'....If you say no, it should be 'You are not eligible' and there should be a back button...[On exit page]. That [question] should not be there." "It makes it look like I'm continuing the application. Why should I be continuing that application? If I'm not eligible for it, why am I going to put an application in for it? Why is the system allowing me to put an application in?...It will end up wasting someone's time...If this thing is about efficiency, why would I want to submit a form?"...now if this generates an application, and someone over at the VA sees this...I think that's a doggone waste of time.
- "I wouldn't even give them the [option of] saying yes...I would have them put an 'additional benefits' page right down there [on the exit page].[Upon clicking 'No" and seeing the 'Explore other education benefits' button] Ah ha!
- I would like to see [the 'Explore other education benefits' button] earlier."
- Give them the back button, the 'Explore other education benefits" button and git rid of the question.
- "You have to put some kind of control measure in...Would prevent the VA from wasting time.]
- "The VA using this font actually makes it less daunting"
- [Later in the application] "Didn't I just [enter my school]?...[School Selection] is a little bit confusing"

**Key findings:**

- [Exit page] "Okay, so it looks like I'm not eligible for it." [Based on the 3 eligibility bullets on the Exit page]
- "[The icons] are very helpful...they give a clear picture of the eligibility criteria and the information that I entered...Yes, I'm receiving benefits. No, and so on."
- Knows that you must meet 'all 3' of the criteria based on the sentence.
- "Maybe the continue button would not be blue. It might be grayed out."
- [Upon taking the extra step of clicking no and seeing the "Explore other education benefits" button] Okay, alright, that makes sense. Do you want me to click the "Explore other education options". Was eager to click it. Thinks the button is useful.
- "[The 'Explore other education options' button] would bring me to a new page with a list of Education benefits."
- "It's pretty straightforward and... the language that is used is pretty clear."
- "Based on what it says, I would think they would deny the application"
- Would expect to see an "I" in a circle to learn more about STEM programs on the Exit page.
- Knows what STEM fields are.
- Didn't read about teaching certification originally - skipped over it.

**Key findings:**

- [Read through the criteria] "I meet the requirements, so I'll click 'Yes'."
- [From the wizard copy] "I can see immediately I would not be eligible. Noticed the criteria in 4 places.
- [While answering the STEM question] "You should stop because you are a history major and do not qualify."
- "I would not see any benefit [to applying]."
- "I would [select "No" on the Exit page and] "Explore other education benefits"
- Likes "let us determine" rather than "let VA determine" "In a way, it makes it a little more personable...makes it feel a little more tailored to you, rather than a form letter."
- [Alternative version] "In this case I would click 'Yes' because in a way it's VA's decision t[to determine] what they would like to do."
- "Would want to finish using Post-9/11 benefits before using this scholarship...Would come back at that time [to apply]."
- "If I had 7 months left, that would be different. I would apply because next month, I'm going to have 6 months left. If I had more than that, I would probably wait until...the end of the next semester...or year".
- "Once I said I did not want to let 'VA determine my eligibility' I'd want to see that ['Explore other Education benefits' button] because if I was looking for additional benefits on top of the post-9/11, then that would be helpful. [UX: Maybe she thought that she needed to stop the process from happening.]

## P7 | Female | 25-34 | History & Music | B. A. | Army | NY (Con't)

---

- Key findings:**
- Copy suggestion for exit page: "If you're interested in applying later, when you have less than 6 months benefits, then come back again". "That's what I would expect here [on the exit page]."
  - [What would you do if you realized you were ineligible on the wizard?] "I wouldn't know at that point that there is the "Explore other education benefits" button towards the end of the application, but I would start ... clicking other links on the menu on the left side to see if there was anything that I was eligible for to have greater benefits."
  - "I'm not going to waste my time applying for a scholarship that I know I'm not eligible for...I think it wastes the VA's time
  - "If the menu was still there, I'd just go up and start clicking in other areas to see if there was another link to click that had other scholarships that I might be eligible for. And failing that, if the menu wasn't there, I'd log out and log back in to reset the whole situation" [UX: showing the button earlier may be valuable and save the user time.]
  - "Those 3 criteria are pretty clearly laid out, even on the first page...It's very clear."
  - "It still hammers at you 'Are you actually eligible for this?', several times, which is a good thing, I think, because it makes sure that you are actually a STEM major.
  - Aware that all 3 criteria are required. Thinks you could likely apply with 7-8 months left as you'd have 6 months left when it was awarded.
